Shanghai

## Create the best flooring production base in Shanghai

Shanghai is a city with long history. The Yangtze River Delta area with Shanghai at the center is the most important rapidly growing timber import, processing and export region in China.

Shanghai Building Materials Industry Association (SBMIA) Flooring Committee, founded in April 2002, is made up of major flooring manufacturers and dealers in and nearby Shanghai, and has 133 member units at present. In 2005, the flooring manufacturers in Shanghai produced floor of 53,000,000 m<sup>2</sup>, more than 6 billion Yuan. The member enterprises contributed over 90% of the total output.

All of this, and more, will be the backdrop for the 2006 China Wood Flooring Export & Import Conference, Nov. 8-11, where high quality wood flooring manufacturers and purchasers from all over the world will gather together for this professional conference. Our conference is supported by FEP, WWF, Fordaq, RISI, Shanghai Building Materials Industry Association; Flooring Committee (SBMIAF) and other 16 local professional associations in China now.

Three distinct events in our conference: assist you to get more opportunity and expand your business in China.

- 1) Two – Day Global/China Conference
- 2) Two – Day Concurrent Exhibit of Chinese & International Producers
- 3) Two – Day Industry Tour

The latest and more information about the Conference is available on-line at the CWI's website, [www.chinawood.net/conference/2006flooring.htm](http://www.chinawood.net/conference/2006flooring.htm)
